## After Vacation Peel Your Discolored Skin

(From Broadway Weekly.)  
Women returning from the seaside with browned, reddened or freckled complexions will be wise in immediately taking up the mercurized wax treatment. Weather-beaten skin had best come off, for no amount of "beautifying" will ever make such skin pretty to look at. The surest, safest, easiest way to shed the discolored cuticle is with the treatment suggested. Put the wax on before retiring, as you would cold cream, and rinse it off next morning with warm water. Minute particles of scarf skin will peel off day by day, gradually showing the healthy, youthful skin beneath. One ounce of mercurized wax, obtainable at any drug store, is enough to make any discolored or spotted complexion clear, white and satiny soft. Its action is so gentle no injury is caused and the face shows no trace of its use.  
Burning heat, irritating winds and dirt are such wrinkle-makers that the daily use of the following astringent-tonic lotion at this season is highly advisable. Powdered sallolite, 1 oz., dissolved in witch hazel, 1 pt. Used as a face bath this is a splendid wrinkle remover and preventive.
